Company Information

Riverlane (Registered name: Riverlane Ltd), headquartered in Cambridge, UK, is led by CEO and Co-founder, Dr Steve Brierley. Riverlane also has subsidiaries in Boston, MA, and San Francisco, CA.

Cambridge, UK Address:

Riverlane
First Floor, St Andrew's House
59 St Andrew's Street
Cambridge
CB2 3BZ
UK

Boston Address:

Riverlane Research Inc
One Broadway, 14th Floor
Cambridge
MA, 02142
USA

San Francisco Address:

95 Third Street
San Francisco
CA 94103
USA

Email: team@riverlane.com

About Riverlane

Facts and Figures

Riverlane has currently (June 2023) an international team of 90 employees, based in the UK and the US.

Riverlane has secured £33M of funding from private investors, from Seed, Series A and Series B funding. (June 2023)

Founding Year: 2016

Founder: Dr Steve Brierley, CEO

Boilerplate

Riverlane's mission is to make quantum computing useful far sooner than previously imaginable.

Riverlane is focussed on breaking through the fundamental barrier towards useful quantum computing – quantum error correction. Riverlane is tackling this challenge by building Deltaflow.OS, a quantum operating system consisting of scalable control systems and fast decoders, as well as developing a deep understanding of optimal quantum algorithms for error corrected quantum computers.

Riverlane is backed by venture capital funding from Molten Ventures, Cambridge Innovation Capital, Amadeus Capital Partners and the University of Cambridge.

Headshots and bios

Dr Steve Brierley CEO & Founder

Steve Brierley is founder and CEO of Riverlane, which is building the Operating System for error corrected quantum computers. He founded the company in 2016, because of his passionate belief that fault tolerant quantum computers will be capable of accelerating a significant era of human progress and could be built far sooner than previously imaginable. Today, Riverlane is well on its way to achieving that mission.

Steve has worked in quantum for 20 years and is an expert advisor to the UK government. He holds a PhD in quantum information and has spent almost a decade in the intelligence community as a Senior Research Fellow at the University of Cambridge, leading major research projects in quantum computing.

Dr Maria Maragkou VP of Product

Maria has over a decade of experience in quantum technology. As Head of Business Development at Riverlane, she built a network of global partners and a deep understanding of the global quantum computing ecosystem. As VP of Product, she is developing solutions that address those needs.

Maria has a PhD in Physics from the University of Southampton and an MBA from Kedge business school. After 4 years of post-doctoral research on single photon sources, she worked in science publishing as a Senior Editor at Nature Materials.
